

§4346. Technical and financial assistance program

The technical and financial assistance program for municipalities, regional councils and multimunicipal regions is established to encourage and facilitate the adoption and implementation of local, regional and statewide growth management programs. [PL 2001, c. 578, §19 (AMD).]

The department may enter into financial assistance grants only to the extent that funds are available. In making grants, the department shall consider the need for planning in a municipality or multimunicipal region, the proximity of the municipality or multimunicipal region to other areas that are conducting or have completed the planning process and the economic and geographic role of the municipality or multimunicipal region within a regional context. The department shall give priority in making grants to any municipality or multimunicipal region that has adopted a local climate action plan and, if the municipality or multimunicipal region has adopted a comprehensive plan or growth management program, prepared a climate vulnerability assessment pursuant to section 4326, subsection 1, paragraph L. The department may consider other criteria in making grants, as long as the criteria support the goal of encouraging and facilitating the adoption and implementation of local and multimunicipal growth management programs consistent with the procedures, goals and guidelines established in this subchapter. In order to maximize the availability of the technical and financial assistance program to all municipalities, multimunicipal regions and regional councils, financial assistance programs administered competitively under this article are exempt from rules adopted by the Department of Administrative and Financial Services pursuant to Title 5, section 1825-C for use in the purchase of services and the awarding of grants and contracts.
