

**STATE OF MAINE
ONE HUNDRED AND TWENTY-FOURTH LEGISLATURE
FIRST REGULAR SESSION
JOURNAL OF THE SENATE**

In Senate Chamber
Thursday
May 14, 2009

Senate called to order by President Elizabeth H. Mitchell of
Kennebec County.

Prayer by Senator Kevin L. Raye of Washington County.

SENATOR RAYE: Good morning. Let us take a moment to pray together. Heavenly Father, we thank You for the many blessings You have bestowed upon us and continue to shower upon us each and every day. We ask for Your continued blessing as we go about our work. Be with us in this chamber as we deliberate and we fulfill the duties entrusted to us by the people of Maine. Be with us in committees, in negotiating sessions, as we work through our differences and seek consensus. Help us to remember that even in our differences we seek, each in our own way, what we believe to be the best outcome for our state and people we represent. Strengthen us in the face of our weakness. Soften us in the face of our harshness. Calm us in the face of our anxiety. Unsettle us in the face of our complacency. In all of our work, guide us to an outcome of which we can take pride, knowing that we have fulfilled what our constituents expect from us and that we have done it in a way that will cause You to say at the end of our days, 'Well done, thy good and faithful servant.' Amen.

Reading of the Journal of Wednesday, May 13, 2009.

Doctor of the day, Dr. Key Stage, MD, FACS of Camden.

Senator **RAYE** of Washington requested a Roll Call.

THE PRESIDENT: The Chair recognizes the Senator from Piscataquis, Senator Smith.

Senator **SMITH:** Thank you, Madame President. Just a couple of words about the divided report and why there is a minority report on this. This is essentially a fee increase bill and it's a very substantial one in terms of percentage of increase for asbestos removers. They have a yearly fee that they have to pay for their licensure for each year. It's relatively low now. It goes up several hundred dollars in the first year, something like \$600 in the second year, and up to \$1,000 in the third year and for each year thereafter. There was no participation by this industry in the public hearing. My sense of it is that they had no idea that this was out there. They have no one representing them around here. I think it just got by them and I think we need to hear from them before we levy such a massive increase in fees as this bill does. I would urge that you oppose the pending motion. Thank you.

Joint Resolution

The following Joint Resolution:

H.P. 1031

JOINT RESOLUTION RECOGNIZING MAY 15TH AS FIBROMYALGIA AWARENESS DAY

WHEREAS, fibromyalgia is a common and complex chronic pain disorder that affects people physically, mentally and socially; and

WHEREAS, fibromyalgia is characterized by chronic widespread pain, multiple tender points, abnormal pain processing, sleep disturbances, fatigue and often psychological distress that can be extremely debilitating and can interfere with basic daily activities and social interaction; and

WHEREAS, fibromyalgia is a very serious and chronic illness and is known as a syndrome, which is a collection of signs, symptoms and medical problems that tend to occur together but are not related to a specific, identifiable cause and for which there is no known cure; and

WHEREAS, this condition affects an estimated 7 to 10 million people in the United States and many more millions of people worldwide and is more likely to affect women, occurring 9 times out of 10 in women; and

WHEREAS, people living with this condition live with difficulty in performing everyday activities, such as climbing stairs, lifting weight and performing other actions involving physical strain, and with widespread pain in muscles, joints and ligaments; and

WHEREAS, people with fibromyalgia face discrimination in the workplace and from family and friends because so few people are aware of or understand what fibromyalgia is and what its symptoms are; and

WHEREAS, diagnosis of fibromyalgia is difficult and takes an average of 5 years because many of the symptoms mimic those of other disorders, resulting in the average person's spending thousands of dollars in medical bills just to receive a diagnosis; and

WHEREAS, public education is important in order for patients to receive proper diagnosis and treatment; public awareness will help to eliminate the myths about fibromyalgia, improve patient support and encourage research; and

WHEREAS, the National Fibromyalgia Association's community awareness campaign involves an annual National Fibromyalgia Awareness Day, and this year's awareness theme is "Fibromyalgia Affects Everyone" to emphasize the far-reaching effects of this disorder, from broken lives to the economic costs to patients and society; now, therefore, be it

RESOLVED: That We, the Members of the One Hundred and Twenty-fourth Legislature, now assembled in the First Regular Session, on behalf of the people we represent, take this opportunity to recognize May 15, 2009 as Fibromyalgia Awareness Day in the State, and all citizens are encouraged to support those seeking a cure for fibromyalgia and to assist those individuals and families who on a daily basis deal with this devastating disease.

On motion by Senator **COURTNEY** of York, supported by a Division of one-fifth of the members present and voting, a Roll Call was ordered.

THE PRESIDENT: The Chair recognizes the Senator from York, Senator Nass.

Senator **NASS:** Thank you, Madame President. Ladies and gentlemen of the Senate, I rise today to speak in opposition to the motion before us, Ought to Pass as Amended. We will, hopefully, get a chance to offer a different amendment. This is not a good situation. We have known, collectively, that we need a new model for vocational education. The Education Committee, over the past couple of sessions, has been working to develop a process. A process took place last year that resulted in a competitive opportunity for the school districts in our state. In the end the legislature intervened again. However, I guess I'm the first on my feet, so I get to describe what I think happened first. The unfortunate part now is that we've created the competition and the results of the competition were not, as some folks who participated in the development of it, what they thought was going to happen. The legislature intervenes again. It's probably our own fault, ours collectively. We set up a process. We set up the competition to take place before the rules were finalized and approved. I guess, in the end and hindsight is great, we shouldn't be surprised that we're now in a mess. I am part of the York County delegation that is asking for us to defeat the current motion. We have two competing plans or proposals for vocational education going forward. It's important to all of us. We need a new model for vocational education. The outcome now has come down to a competition between two specific proposals. There is no plan to fund these things yet, so we've having this nose-to-nose, head-to-head, competition with the folks from mid-coast. You are going to hear references to the York County proposal, which is called Great Works, and the Mid-Coast proposal, which

ORDERS OF THE DAY

is called Many Flags. Those are the two competing interests at this point. Whatever we do today, this isn't going to end, unfortunately. We're going to continue to have this discussion, but it's my wish today to vote against the current motion. Thank you.

THE PRESIDENT: The Chair recognizes the Senator from Knox, Senator Rector.

Senator **RECTOR:** Thank you, Madame President. Ladies and gentlemen of the Senate, this bill, as it is amended currently, represents a 12-1 report out of the Education and Cultural Affairs Committee. The purpose of the bill is to clearly define in rule the implementation of L.D. 2175 from the 123rd Legislature. That resolve required the Department of Education to create provisional rules to be applied by year end last year to implement a new model for secondary and postsecondary education. At the time the resolve was passed unanimously by both bodies, I might add, there was no means by which two academic high schools or regional vocational high schools, the University of Maine and the Community College System and any industry directed educational centers of excellence could be combined on one campus. In fact, because of a project I had initiated nearly six years ago called Many Flags One Campus, we have been working with the Department of Education for nearly two years to try to develop an application process recognizing the uniqueness of that or other projects to allow for application for construction funding following this new model. The Department and the State Board of Education, while recognizing the important characteristics of this project, were unable to develop a model method of application for such a project. In the absence of action on the part of the Department, we created a piece of legislation. That legislation was cosponsored by the leaders of both parties in both legislative bodies because of the realization that the need for a new model for the 9-12 education was necessary. The upshot of that legislation was it directed the Department of Education to develop rules and implement an application process to allow the model of academic and vocational secondary education, combined with industry centers of excellence, community college and university collaboration, all in one presence. The goal was seamlessness of passage through the educational system grades 9-16 and beyond. The Department did create provisional rules and applied those rules in an application process last fall. Those applications were received and scored in a process that was later described in a March 18th letter from the Department to all applicants as lacking 'sufficient impartiality', was 'inconsistent or at least confusing and misleading', and some applicants had been offered special 'interpretant guidance.'

Subsequent to the provisional rule making the Joint Standing Committee was asked to permanently approve those rules in L.D. 79, which is before us today. The Committee, when reviewing the rules proposed by the Department of Education in their provisional rule making for their relation to the original legislation, determined that the Department had added provisions that were not in the original bill. Those provisions specifically allowed for higher education to be offered completely virtually. While virtual courses are now part of almost all higher education programs and allowed under the rules that came from the Committee, an all-virtual higher education center did not reflect the intent or the specifications of the bill from last year. Legislative intent is essential when any rule making is forthcoming from a department. That is at the very heart of major substantive rule making

process. It allows for legislative review specifically to avoid activist departments from misinterpreting the will of the legislature. That activism is exactly what happened in the case of implementing the rules we are discussing in L.D. 79. The Committee, in a 12-1 vote, led by those who were on the Committee last year and clearly remember the discussions about this 9-16 education model, worked to align the rules with the legislation that passed last year. That is critically important, not just to this particular case but as a matter of principle for the legislature to be certain that their wishes are appropriately interpreted in rule. While there are those who would refer to this as a changing of the rules in the middle of the game, I would suggest that the rules were inappropriately made up by the Department in a way that was never legislatively intended. In fact, rather than changing the rules, we are clarifying the rules to reflect that legislative intent. We're bringing the rules in line with the law that was unanimously passed and we are then reopening the process to all who meet the criteria to apply and be scored fairly as originally intended. The applicants who had applied earlier are worthy projects and will be able to apply again. Assuring legislative intent is reflected in this legislation should be the outcome of our actions. That ability, to reflect intent by the legislature and not the Department, should certainly be the goal of the legislature in this and all major substantive rule making. I urge your support of this bill, as the Committee has amended it, and I thank you, Madame President.

THE PRESIDENT: The Chair recognizes the Senator from York, Senator Bowman.

Senator **BOWMAN:** Thank you, Madame President. I just want to complement the previous two colleagues who spoke on either side of this issue. They both spoke rather eloquently. I want everybody to make sure that they understand that no matter who wins this debate, and I'm not talking about people, I'm talking about the sites, this concept is a winner. I was in the 123rd on the Education Committee, as you all know. It was a brutal but wonderful learning experience. When the precursor or predecessor of this bill was brought before our committee we were absolutely astounded by all the wonderful work that had gone into the development of this model by the Many Flags people and the Executive Director was such a passionate, articulate sponsor, mover, of this concept that it was really a pleasure to see that. However, the Education Committee in the 123rd decided to, although the intent of the bill was to award or give the concept to Many Flags, open up the issue to competition because that was what was fair. The competition began and, low and behold, Great Works was declared the winner under the rules that were there. I know there will be those who will stand up and defend it although I don't see the chief proponent present here but I am sure he will give you good reasons and rational. For me, the issue turns on fairness. If you believe in fairness in that the competition was held, was completed, there was a winner, although I want to say that the concept is really the winner, and I hope we can replicate this throughout the state if it proves successful. I think it's a matter of fairness. The issue has been brought up before that rules were changed. That's how I view it. I just want to say both sides are excellent. It is a shame that, in this fiscally constrained world of ours, that we have to choose one over the other. Thank you.

THE PRESIDENT: The Chair recognizes the Senator from York, Senator Courtney.

Senator **COURTNEY:** Thank you, Madame President. Men and women of the Senate, I'll try to be brief. I just want to go on the element of fairness. The legislature, last session, created this process. It directed the Department of Education to set up this process where there would be a competition. The York County group and the Mid-Coast group both applied for this and it was very close. The York County group came in slightly ahead. Both groups knew what the rules were going in and then after the Mid-Coast group came in second they decided that the rules didn't reflect the original law. I think, from our perspective as the York County group, we engaged in the competition, followed the rules to the best of our ability, spent thousands and thousands of dollars doing that, brought in a lot of groups and many superintendents throughout York County, different school districts, university, the business community, and tried to make this as strong a proposal as possible and then they come back and the legislature changes the rules. That's really the challenge that we face and that's why I would encourage you to vote Ought Not to Pass. Thank you.

THE PRESIDENT: The Chair recognizes the Senator from Waldo, Senator Weston.

Senator **WESTON:** Thank you, Madame President. Men and women of the Senate, I represent the work that was done in the 123rd, so I love timelines. I want to strip a lot of the things away and talk about the process that we are all very familiar with and why it works. The process was that a bill was brought before the Education Committee. It was passed; it was passed unanimously in both the Senate and the House. It did require rule making. The Department of Education did its responsibility and it wrote the rules. There were some questions but everything proceeds in emergency rule making until we are back in session again. The bill that we passed required it to be put in motion. The actual work of having people come and apply for this project was put in motion with the emergency rules that the Department had put together. The next part of the timeline is what always happens, those rules that are conditionally accepted in emergency rule making then come to the committee of jurisdiction. That's what happened this year. Our committee, in a 12-1 report, said to the Department of Education that their rules did not match the legislation. In fact, they actually change the focus and the content of the law. That's our job as legislators. That is the legislative branch. We had a 12-1 report that then realigned and we tweaked the rules to be in alignment with the law that was passed last session. That's what you have before you, what the majority of the Committee believes is an alignment. What happens going forward will be a part of the process that we have got in place now, correctly attaching the law to the rules. That's why this must be passed, go forward, and now the Department can continue the process, knowing in confidence that the legislature, the law we pass now, agrees with the rules that are in place. There will be more transparency and more fairness. Thank you.

THE PRESIDENT: The Chair recognizes the Senator from York, Senator Courtney.

Senator **COURTNEY:** Thank you, Madame President. Men and women of the Senate, obviously there is a difference of opinion

here and a difference of interpretation of what happened and how it happened and when it happened. I guess the one thing I would just suggest is that the Chairman of last year's Education Committee obviously sees it slightly different than some members this year. I understand that when we originally talked about this with some of the Committee they were talking about the intent of the Committee. I think there were only three hold-over members from the previous session. I would just encourage you to look at the process that we've gone through. The legislation directed the Commissioner to set up a competition. The competition was held. It appears to be declared null and void if this passes and I think that is unfair. Having said that, I just want to get one piece of clarification. If I could just present a question through the Chair.

THE PRESIDENT: The Senator may pose his question.

Senator **COURTNEY:** Thank you, Madame President. Forgive me if this has already been answered, if this piece of legislation goes through does that completely reopen the applications, with the opportunity not only to reopen the competition but to reopen the competition with new applications?

THE PRESIDENT: The Senator from York, Senator Courtney poses a question through the Chair to anyone who may wish to answer. The Chair recognizes the Senator from Waldo, Senator Weston.

Senator **WESTON:** Thank you, Madame President. The answer is yes.

THE PRESIDENT: The pending question before the Senate is the motion by the Senator from Cumberland, Senator Alfond to Accept the Majority Ought to Pass as Amended Report. A Roll Call has been ordered. Is the Senate ready for the question?

READ ONCE.

Committee Amendment "A" (H-49) **READ**.

On motion by Senator **NASS** of York, Senate Amendment "B" (S-133) to Committee Amendment "A" (H-49) **READ**.

THE PRESIDENT: The Chair recognizes the Senator from York, Senator Nass.

Senator **NASS:** Thank you, Madame President. Ladies and gentlemen of the Senate, this amendment simply removes what has become the tipping point, I guess, or the bone of contention as we dealt with the various applications, and that is the virtual presence, the need to have actually bricks and mortar as opposed to virtual education. I think, at least I believe, that as we move forward our ability to provide bricks and mortar is going to be somewhat limited, especially on the higher education piece. In fact, the education of the future is going to be a lot more virtual than it is now. We ought to recognize that as we go forward with these new concepts. Thank you, Madame President.

THE PRESIDENT: The Chair recognizes the Senator from Knox, Senator Rector.

Senator **RECTOR:** Thank you, Madame President. Men and women of the Senate, I would urge defeat of this amendment and I would urge it on the basis that the very model that we set forth was to permit a seamless education model that provided students in secondary schools, in our 9-12 schools, an opportunity to have an actual presence for guidance in higher education on the campus that they were attending. While virtual classes can be offered, and will be extremely useful in broadening the array of courses that will be available, it's very important in the model that was presented and in the testimony from the Commissioner at the time that we presented our bill in the last session that an actual physical presence for that higher education be there. That might be in classrooms within a high school building, but it needs to be an actual presence so that guidance and class selections and actually classes can take place on that campus. I would urge defeat of this amendment. Thank you, Madame President.

THE PRESIDENT: The Chair recognizes the Senator from Waldo, Senator Weston.

Senator **WESTON:** Thank you, Madame President. Men and women of the Senate, I stuck to just the facts last time. Let me give a little more detail. There is a lot of opportunity for creativity in education in K-12 and in higher ed. One of those is virtual classes, on-line classes. What was unique about the bill that came last session was that there was nothing in law that allowed, or permissive to allow, this unique situation which was a bricks and mortar higher ed along side a high school technical school along aside a K-12 school. There probably won't be many of these built in our state. They worked on this. They tried to do it under prevailing law and realized that they needed permissive language. The only real reason there was a bill in the last session and the rules we just approved are happening is because of the brick and mortar. I would raise the Oxford Comprehensive School as a great example that did not require any new legislation to have an on site technical school as part of their high school operation. There is just no need for legislation to do that. The only reason that law was necessary was because this group, and any other group who wants to, wanted a brick and mortar higher

ed. If this amendment is passed you can come back here next year and strike the law and strike the rules because they aren't necessary. If you take out 'have a physical presence' you are preventing the very uniqueness that came here as bill request last year. There is no need for this. If another group wants a comprehensive school and they want to bring in other parts of the district, they can do that now. This law that these rules help explain requires brick and mortar. If you don't want brick and mortar higher ed then you do something else. If you do, you need the law that was passed and you need the rules that we just passed not this amendment. I ask you to vote against it and ask for a roll call.

On further motion by same Senator, supported by a Division of one-fifth of the members present and voting, a Roll Call was ordered.

THE PRESIDENT: The Chair recognizes the Senator from York, Senator Courtney.

Senator **COURTNEY:** Thank you, Madame President. Men and women of the Senate, this kind of gets back to the whole basis of the competitive process. Usually when one puts forward a school project they go through the process of competing with every other community in the state. This kind of narrows it a little bit more. I think if you look at the original resolve you could almost see why the Commissioner would think that you want to expand it a little bit more and open it up, make it a little more free flowing so more people could compete with this. I'm not sure that the Commissioner stepped that far off from the direction of the legislature, at least not what was written, but maybe what was intended by some people. I think it's already been said what was intended was to create a special law to create a special school and have little competition. I would ask that you accept the pending motion. Thank you.

THE PRESIDENT: The pending question before the Senate is the motion by the Senator from York, Senator Nass to Adopt Senate Amendment "B" (S-133) to Committee Amendment "A" (H-49). A Roll Call has been ordered. Is the Senate ready for the question?

The Chair laid before the Senate the following Tabled and Later (5/6/09) Assigned matter:

Bill "An Act To Track the Prevalence of Childhood Obesity in Maine"

H.P. 255 L.D. 319
(C "A" H-130)

Tabled - May 6, 2009, by Senator **BARTLETT** of Cumberland

Pending - **PASSAGE TO BE ENGROSSED AS AMENDED**, in concurrence

(In House, April 29, 2009, **PASSED TO BE ENGROSSED AS AMENDED BY COMMITTEE AMENDMENT "A" (H-130).**)

(In Senate, May 5, 2009, **READ A SECOND TIME.**)

On motion by Senator **BRANNIGAN** of Cumberland, the Senate **SUSPENDED THE RULES.**

On further motion by same Senator, the Senate **RECONSIDERED** whereby it **ADOPTED** Committee Amendment "A" (H-130), in concurrence.

On further motion by same Senator, Senate Amendment "B" (S-164) to Committee Amendment "A" (H-130) **READ.**

THE PRESIDENT: The Chair recognizes the Senator from Cumberland, Senator Brannigan.

Senator **BRANNIGAN:** Thank you, Madame President. This was a bill that had been worked in our committee unanimously but the Senator from Lincoln, Senator Trahan, had some comments. We felt they were legitimate comments actually, so we have adopted and adapted and we appreciate it.

On further motion by same Senator, Senate Amendment "B" (S-164) to Committee Amendment "A" (H-130) **ADOPTED.**

Senator **RAYE** of Washington requested a Roll Call.

THE PRESIDENT: The Chair recognizes the Senator from Waldo, Senator Weston.

Senator **WESTON:** Thank you, Madame President. I do not have a copy of that amendment. If someone could explain it or get me a copy. Thank you.

THE PRESIDENT: The Chair recognizes the Senator from Lincoln, Senator Trahan.

Senator **TRAHAN:** Thank you, Madame President. Members of the Senate, I will try to explain the amendment. I did have concerns that the information that was being collected in this bill could label students if used in an inappropriate manner. Also I was concerned that insurance companies could access this information. This amendment would put in place a confidentiality protection for the information that is gathered around the student's medical information and that is what the amendment does. I appreciate the good Senator for having amended the bill. Thank you.

THE PRESIDENT: The Chair recognizes the Senator from Waldo, Senator Weston.

Senator **WESTON:** Thank you, Madame President. May I pose a question through the Chair?

THE PRESIDENT: The Senator may pose her question.

Senator **WESTON:** Thank you, Madame President. The data that will be collected, I am assuming it will be collected in our schools. Will this be collected through the new data collection process Infinite Campus and if so that is done by student name. I understand this is being reported in aggregate only but the

identification, at least if the data is entered into the Infinite Campus, will be identified by name. I would just like clarification.

THE PRESIDENT: The Senator from Waldo, Senator Weston poses a question through the Chair to anyone who may wish to answer. The Chair recognizes the Senator from Lincoln, Senator Trahan.

Senator **TRAHAN:** Thank you, Madame President. My understanding of the confidentiality statute is that it doesn't make any difference where this information is housed. The confidentiality protection will apply in any standard. Thank you.

THE PRESIDENT: The Chair recognizes the Senator from Penobscot, Senator Plowman.

Senator **PLOWMAN:** Thank you, Madame President. May I pose a question through the Chair?

THE PRESIDENT: The Senator may pose her question.

Senator **PLOWMAN:** Thank you, Madame President. Not having had the benefit of attending the public hearing and the work session, would someone please tell me what kind of talk the discussion revolved around the body image of young women, the middle schoolers, and the high schoolers who were going to be looking at this information and wondering how they should interpret it among themselves and by themselves?

THE PRESIDENT: The Senator from Penobscot, Senator Plowman poses a question through the Chair to anyone who may wish to answer. The Chair recognizes the Senator from Cumberland, Senator Brannigan.

Senator **BRANNIGAN:** Thank you, Madame President. As I understand it, this is mathematical. I thought maybe they would come along and squeeze and measure. That is what I was thinking of. I was easily and quickly corrected. It is a mathematical calculation that the school nurse or one of the other people will do if there is funding for it. You take the height and weight, which they have anyways now, and you just calculate that and send it on in aggregate. That's the way I understand this being done and it's just to get a handle, if you pardon the expression, on how things are going so that people can try to get obesity under control. Thank you.

THE PRESIDENT: The Chair recognizes the Senator from Waldo, Senator Weston.

Senator **WESTON:** Thank you, Madame President. May I pose a question through the Chair?

THE PRESIDENT: The Senator may pose her question.

Senator **WESTON:** Thank you, Madame President. First, I understand any confidentiality issue, under our rules, needs to go first through the Judiciary Committee for review. My question is, has that been done?

THE PRESIDENT: The Senator from Waldo, Senator Weston poses a question through the Chair to anyone who may wish to

answer. The Chair recognizes the Senator from Oxford, Senator Hastings.

Senator **HASTINGS:** Thank you, Madame President. This is kind of a long way to answer my seatmate but on the question regarding the Judiciary review of a new exception to the confidentiality rules the answer is no, it has not been done.

On motion by Senator **RAYE** of Washington, supported by a Division of one-fifth of the members present and voting, a Roll Call was ordered.

THE PRESIDENT: The pending question before the Senate is Adoption of Committee Amendment "A" (H-130) as Amended by Senate Amendment "B" (S-164) thereto. A Roll Call has been ordered. Is the Senate ready for the question?

The Doorkeepers secured the Chamber.

The Secretary opened the vote.
