**STATE OF MAINE  
OFFICE OF THE GOVERNOR  
AUGUSTA, MAINE**

June 29, 2021

The 130th Legislature of the State of Maine  
State House  
Augusta, Maine

Dear Honorable Members of the 130th Legislature:

By the authority conferred by Article IV, Part Third, Section 2 of the Constitution of the State of Maine, I am hereby vetoing LD 675, *An Act to Protect Maine Consumers from Unsupported Price Increases on Prescription Medications*.

The high price of prescription drugs is an enormous problem for consumers in the State of Maine and nationally. It is unconscionable that lifesaving medications are often unavailable or difficult to access due to their cost. I have worked hard as Governor to expand health coverage to more Maine citizens - through MaineCare expansion, development of the State-based Marketplace for individual coverage, and reforms to make coverage more affordable for small businesses - thus increasing insurance coverage for prescription drugs. In my first year in office I restored the Maine Low-Cost Drugs for the Elderly and Disabled Program to cover an additional 1,800 Maine seniors. Additionally, I have supported a number of bills that shine a light on pricing practices of pharmaceutical companies so that the public and purchasers are more aware of drug pricing, as well as a bill to create the Prescription Drug Affordability Board, and bills to better regulate pharmacy benefit managers.

This bill is one five bills that comprised the *Making Health Care Work for Maine* package. Of these five, I was pleased to sign two into law (LDs 673 and 686), while a third, LD 120, which I support, is on the Special Appropriations Table. On LD 675, which received a divided report in the Health Coverage, Insurance and Financial Services Committee, I was prepared to support the Amendment advanced by the Committee Chairs. I remain committed to working with the Legislature to address these important issues in a way that will ultimately be legal and, as a result, allow us to make real and meaningful change for the people we represent, a goal I know we all share.

I commend the sponsor and supporters of LD 675 for bringing further attention to the high price of prescription medications. Unfortunately, I believe this bill, along with LD 1117, would not survive Constitutional scrutiny, would invite costly and protracted litigation, and, even if unexpectedly upheld in court, would not have the intended effect of significantly lowering the price of medication for Maine citizens.

LD 675 aims to prohibit "unsupported price increases" of prescription drugs.<sup>1</sup> As structured, the bill requires the Maine Prescription Drug Affordability Board (MPDAB) to identify a list of up to 12 drugs with unsupported price increases based on data identified in the Maine Health Data Organization (MHDO) annual report. This list of medications must then be reported to the State Treasurer in order to collect fines from the manufacturers. The Attorney General can also bring an action on behalf of the Treasurer whereby the Superior Court may issue an order to collect these fines, which would be placed into a fund to offset Attorney General's costs of enforcing the law. It would not be until 2027-28 that the bill proposes any of this fund might be used to benefit consumers or to offset health care costs to consumers.

This bill, and its complex structure, will undoubtedly invite litigation based on several potential Constitutional claims. First, because the bill applies state consequences (fines) to out-of-state prices, the bill is vulnerable to a challenge based on the dormant Commerce Clause, which precludes states from regulating transactions that occur wholly outside their borders.<sup>2</sup> Moreover, because the bill applies to both generic and *patented* drugs, the State may also be vulnerable to claims related to patent preemption. A Washington D.C. law prohibiting drug manufacturers from selling patented drugs for "excessive prices" (defined as prices paid by other high income countries) was overturned by the U.S. Court of Appeals for the Federal Circuit based on patent preemption - specifically that Congress has the exclusive authority to balance the interests between innovation and access to the patented medications.<sup>3</sup> Unfortunately, this legislation encounters the same fundamental problem.

I believe it is critical that the Federal government pass legislation to address the national concern of drug pricing and that the Federal government is best positioned to help our citizens achieve benefit from real and lasting drug pricing reforms. In particular, the federal government could use its purchasing power through the Medicare program, to negotiate prices of medications on behalf of seniors, for instance.

Whether as District Attorney, Attorney General, or as Governor, I have never shied away from a legal battle that I knew was right and that would benefit the people of Maine. This is not such an occasion. The risks associated with this legislation are high, and the potential reward is low.

In the meantime, for the reasons set forth above, I return LD 675 unsigned and vetoed and urge the Legislature to sustain this action.

Sincerely,

S/Janet T. Mills

Governor

<sup>1</sup> To identify an “unsupported price increase” LD 675 relies on data collected and reported on MHDO that meets the notification requirements of Title 22 section 8732:

A. Increased the wholesale acquisition cost of a brand-name drug by more than 20% per pricing unit;

B. Increased the wholesale acquisition cost of a generic drug that costs at least \$10 per pricing unit by more than 20% per pricing unit; or

C. Introduced a new drug for distribution in this State when the whole sale acquisition cost is greater than the amount that would cause the drug to be considered a specialty drug under the Medicare Part D program.

LD 675 then in section 2036 (l)(B) further requires that the MPDAB use the data from MDHO to determine a list of drugs by:

(1) Reviewing the report regarding prescription drug pricing under paragraph A and determining which drugs had price increases greater than the medical Consumer Price Index plus 2%;

(2) Determining which drugs identified under subparagraph (1) had the largest net price increases in the past year;

(3) Considering manufacturer data regarding any factors or reasoning in the price increase s for the manufacturer's drugs in the past year;

(4) Reviewing all relevant clinical literature regarding the drugs under consideration; and

(5) Finalizing a list of 12 or fewer of the drugs that increased in price in the preceding calendar year without any support for that increase.

**STATE OF MAINE

AUGUSTA, MAINE**

The 130th Legislature of the State of Maine  
State House  
Augusta, Maine

Dear Honorable Members of the 130th Legislature:

By the authority conferred by Article IV, Part Third, Section 2 of the Constitution of the State of Maine, I am hereby vetoing LD 1117, *An Act To Prevent Excessive Prices for Prescription Drugs*.

The high price of prescription drugs is an enormous problem for consumers in the State of Maine and nationally. It is unconscionable that lifesaving medications are often unavailable or difficult to access due to their cost. I have worked hard as Governor to expand health coverage to more Maine citizens - through MaineCare expansion, development of the State-based Marketplace for individual coverage, and reforms to make coverage more affordable for small businesses - thus increasing insurance coverage for prescription drugs. In my first year in office I restored the Maine Low-Cost Drugs for the Elderly and Disabled Program to cover an additional 1,800 Maine seniors. Additionally, I have supported a number of bills that shine a light on pricing practices of pharmaceutical companies so that the public and purchasers are more aware of drug pricing, as well as a bill to create the Prescription Drug Affordability Board, and bills to better regulate pharmacy benefit managers.

This bill is one five bills that comprised the *Making Health Care Work for Maine* package. Of these five, I was pleased to sign two into law (LDs 673 and 686), while a third, LD 120, which I support, is on the Special Appropriations Table. On LD 1117, which received a divided report in the Health Coverage, Insurance and Financial Services Committee, I was prepared to support the Amendment advanced by the Committee Chairs. I remain committed to working with the Legislature to address these important issues in a way that will ultimately be legal and, as a result, will allow us to make real and meaningful change for the people we represent, a goal I know we all share.

I commend the sponsor and supporters of LD 1117 for bringing further attention to the high price of prescription medications. Unfortunately, I believe this bill, along with LD 675, would not survive Constitutional scrutiny, would invite costly and protracted litigation, and, even if unexpectedly upheld in court, would not have the intended effect of significantly lowering the price of medication for Maine citizens.

The laudable goal of LD 1117 is to prohibit excessive price increases of generic or off-patent prescription drugs, a goal I wholeheartedly share. Under this legislation, a price increase of such drugs would be deemed excessive when, adjusted for inflation using the Consumer Price Index, the increase exceeds 20 percent of the wholesale acquisition cost per pricing unit of the preceding calendar year, so long as the cost of the drug is at least \$10 per pricing unit. As structured, the bill would require the Maine Health Data Organization to notify the Attorney General of any such price increases. The Attorney General could then seek an order from the Superior Court to compel the production of records to restrain or enjoin a violation, to restore money to consumers, to assess civil penalties of up to \$30,000 per day, and provide for any other relief.

This bill, with its complex structure, appears to be crafted in an attempt to avoid the Constitutional flaws that resulted in a similar law being invalidated in Maryland. When Maryland passed a law (H.B. 631) prohibiting manufacturers and wholesale distributors from price gouging - defined as an unconscionable increase in price of generic or off-patent prescription drugs - the statute was successfully challenged as a violation of the Commerce Clause of the U.S. Constitution.<sup>1</sup> The problem with the Maryland law and LD 1117 is that both attempt to regulate transactions that occur outside of the states' borders.<sup>2</sup>

Furthermore, the Maryland law, like LD 1117, applied only to medications available for sale in the state. Ultimately, however, the out-of-state manufacturers are liable for the price increase, based on the terms of these dealings with out-of-state wholesalers. It was this attempt at extra-territorial regulation that the Fourth Circuit Court of Appeals found to be a Commerce Clause violation. The Court specifically held that the law could not be applied to situations in which both parties to a transaction are located out of state.<sup>3</sup> LD 1117 is fundamentally structured in the same way, and, as a result, would likely meet the same end in court and Maine people would shoulder the costs of the legal challenge. Even if this bill were ultimately upheld in court, it focuses only on off-patent generic drugs, which are much less expensive than their brand-name counterparts, this bill would do little to lower costs for those it purports to serve.

I believe it is critical that the Federal government pass legislation to address the national concern of drug pricing and that the Federal government is best positioned to help our citizens achieve benefit from real and lasting drug pricing reforms. In particular, the federal government could use its purchasing power through the Medicare program, to negotiate prices of medications on behalf of seniors, for instance.

Whether as District Attorney, Attorney General, or as Governor, I have never shied away from a legal battle that I knew was right and that would benefit the people of Maine. This is not such an occasion. The risks associated with this legislation are high, and the potential reward is low. In the meantime, for the reasons set forth above, I return LD 1117 unsigned and vetoed and urge the Legislature to sustain this action.

S/Janet T. Mills

<sup>2</sup> The Maryland law was also challenged on the grounds that its definition of price gouging was unconstitutionally vague. On this issue, LD 1117's specific but complex process for determining what constitutes an excessive price increase would likely make the bill more defensible. The court never reached the vagueness issue in its review of the Maryland law, resolving the case instead on basis of the Commerce Clause violation, which is also the fundamental problem that remains with LD 1117.

**STATE OF MAINE  
OFFICE OF THE GOVERNOR  
AUGUSTA, MAINE**

June 30, 2021

The 130th Legislature of the State of Maine  
State House  
Augusta, Maine

Dear Honorable Members of the 130th Legislature:

By the authority vested in me by Article IV, Part Third, Section 2 of the Constitution of the State of Maine, I am hereby vetoing L.D. 954, *An Act To Provide Equal Access to the Benefits of the Maine Food Sovereignty Act*.

Under the 2017 Maine Food Sovereignty Act, communities may pass local ordinances that allow the direct sale of many food products without State regulatory oversight. These direct producer-to-consumer transactions must occur face-to-face at the site of production. L.D. 954 originally proposed to add plantations and unorganized territories to the entities that may adopt and enact ordinances under the current Act. The Administration recognized the need for this existing Maine law to be applied equally for all residents regardless of where they reside or conduct business within the state. The bill, as initially written, proposed no further substantive changes to the existing Act, and the Administration supported its adoption.

However, the amendment introduced in the House and adopted by both chambers vastly changes the scope of the transactions that would be exempt from state oversight, and deviates from the intent of the 2017 legislation by eliminating the face-to-face site of production requirement. As a result, anyone would be able to sell any food product, except for certain meat and poultry products, anywhere a food sovereignty ordinance has been adopted with no regulatory oversight and no requirement to inform customers that items were produced in an uninspected facility. Further, L.D. 954 allows the adoption of a Food Sovereignty ordinance at the county-wide level.

Not all foods require inspection in Maine. I strongly support local producers providing healthy foods to their communities. I also believe that all Mainers have a right to healthy, sufficient, and appropriate foods. However, the essential tenets of food sovereignty cannot be entirely divorced from food safety.

A significant portion of the agricultural community has expressed concern that eliminating the existing direct producer-to-consumer definition from the Maine Food Sovereignty Act undermines the ability of consumers to make informed decisions about the safety and quality of the products they are buying. Transactions occurring at the site of production allow the consumer to interact with the producer and make their own judgment about the state of their operation to inform their decision to purchase a product that has not been subject to state inspection. Expanding the reach of these transactions beyond the site of production will allow these foods to enter commerce more broadly, where the consumer may not realize that they are buying an uninspected product, particularly if they are not a resident of the community that has adopted such an ordinance. Notably, there is also no labeling requirement in this bill for these products to convey such information.

I am also concerned that allowing the adoption of county-wide ordinances does not allow for communities to opt out if they wish. This bill places significant public health and food safety responsibilities upon counties and municipalities that may not have the capacity, training, ability, or desire to assume them adequately.

I have heard deep concern from several sectors of the agriculture community and other entities that sell perishable or processed food items about the negative impact that this bill could have on the reputation of Maine's local foods if someone becomes ill from uninspected products. Licensing an operation generally costs between \$25 and \$50, a nominal amount for the educational and technical assistance services provided by state inspectors. It is inaccurate to suggest that basic food safety education, assistance, and occasional inspection of entrepreneurial food producers by the Department of Agriculture, Conservation and Forestry is holding these businesses back.

Maine's food and farm industry is the backbone of our rural communities, which is why it is crucial to uphold basic food safety standards and keep the current safeguards of the Maine Food Sovereignty Act in place. For these reasons, I return L.D. 954 unsigned and vetoed, and I urge the Legislature to sustain this veto.

Sincerely,

S/Janet T. Mills  
Governor
